

HOSE KITS - Aeroquip

NEW! - E-Z Clip Aeroquip Lines & Fittings

This new refrigerant hose and fitting program is the way to go! Now you can complete the entire line fabrication, routing and crimping in your own garage. The unique E-Z Clip fittings are easy to make up and the smaller diameter hose allows for tighter turns and neater routing than before.

- Reduced size and superior flexibility allows for installation in tight quarters and takes up less area.
- Easy assembly in the field or garage with clip tool (pliers)
- Maximum resistance to moisture ingress.
- Light weight, rugged hose material.
- Nickel plated steel fittings.

EZ-Clip System Line Sizes

		
#6 .31" I.D. .58" O.D.	#8 .41" I.D. .70" O.D.	#10 .50" I.D. .78" O.D.

	#6 Hose	#8 Hose	#10 Hose		#6 Hose fitting	#8 Hose fitting	#10 Hose fitting
 A/C Hose	318600-VUR	318800-VUR	318000-VUR				
 Straight Splice 134a service port	347560-VUR	347580-VUR	347500-VUR	 90 Degree	347360-VUR	347380-VUR	347300-VUR

 45 Degree	347260-VUR	347280-VUR	347200-VUR				
 Clip Connecting Pliers 420000-VUR		 Hose Cutter 420001-VUR					

Cage →  ← Clips 

Each fitting connection is made with the proper fitting, one cage, and two cage clips. Order one cage and two clips for each fitting (not included).

Simply slip two clips over the hose end, insert fitting, press cage over hose and into the recessed groove on the fitting. Then move the cage clips over the cage and close the clips with the Aeroquip connecting pliers #420000-VUR.

Braided Stainless Steel Aeroquip Lines & Fittings

We are pleased to now offer genuine Aeroquip A/C hose and fittings. We will stock #6, #8, and #10 hose in bulk and the fittings will be sold individually as specified by your customers installation. We think this product is the best quality products for pro-style flexible line routing.

- Designed specifically for A/C applications
- Nylon tube covered with fine braid stainless steel
- Nickel plated reusable steel fittings
- Charge ports available on fittings
- Female O-ring pilot terminal ends for precise connection with existing A/C components.
- O-ring seal between the hose and fitting nipple increases fitting and hose assembly integrity

INDUSTRY INVOLVEMENT

Vintage Air supports many industry and promotional programs. One our favorites is the NSRA 29 Below program. We believe the street rodding hobby needs all the young minds and energy it can get. If you are a young rodder and you are planning on attending a national event soon, be sure to register for this exciting (and rewarding) program.
